***Photoscan Productions follows strict guidelines when using copyrighted materials. If you want music/video on your DVD/VHS you must supply the original music/video to prove it was purchased by you. We cannot add music/video from a DVD/VHS you burned (unless of course you are the artist). If copyrighted materials are used, we can only make you 2 copies of the finished DVD/VHS (1 main DVD/VHS and 1 backup DVD/VHS). Once your job is done, all files associated with your job are deleted and your music/video is returned to you. With royalty-free, generic music/video, these guidelines do not apply.
