

SLIDE SHOW PRICE SHEET

\$2.00 Per Photo, \$1 Per Second of Video

For paper photos that need to be scanned and touched-up first, the Scanning Price Sheet will apply in addition to the Slide Show Price Sheet.

For photos already in digital format (jpg, bmp, etc.), only the Slide Show Price Sheet will apply.

Since all Slide Shows are different, the following prices are general guidelines only. Please contact PhotoScan Productions for your specific needs and to get a more accurate price. Also, send for a free sample DVD and see why your neighbors love us.

General Guidelines

NUMBER OF PHOTOS YOU SUPPLY IN RED
SCENE DURATION (how long the photo is seen) IN BLUE

SLIDE SHOW EXTRAS

Scenes Choreographed to Music - \$10 per minute

Custom Animation - \$5 per second

Editing the Original Audio on any Video - \$5 per minute

Additional Slide Show DVD Copies complete with custom label and case - \$10 each

For major repairs to damaged originals or for significant alterations (such as removing or adding a person, repairing torn up photos), extra charges will apply

Slide Shows - Simple or Complex

Simple Slide Shows are just a single layer of visual with a single layer of audio (if any) and no scene transitions, text, zooming, motion, special effects or animation. Complex Slide Shows have many layers of both visual and audio and include scene transitions, text, zooming, motion, special effects and animation. Most Slide Shows fall in the middle with a mix of simple and complex areas.

The average scene duration in a Slide Show is about 3, 4 or 5 seconds. This is about twenty 3-second scenes per minute, fifteen 4-second scenes per minute, and twelve 5-second scenes per minute. Most slide shows and movies contain a mix of durations with some short and some long depending on the content of the scene. As a rule, the more faces you have in a photo the longer the duration of the scene.

PhotoScan Productions follows strict guidelines when using copyrighted materials. If you want copyrighted music/video on your DVD you must supply the music/video to prove it was purchased by you. One option regarding music is for PhotoScan Productions to buy the music from the internet on your behalf. Of course this would add a small charge (usually about \$1 per song) to your final price.

Soon after your job is completed all the materials, music and scanned photo files pertaining to your DVD will be PERMANENTLY ERASED! Please request Slide Show copies before everything is deleted. All your materials will be returned to you promptly.
